
REEB® FINISH EXPRESS

A Reeb Finish Door Unit...*Delivered in Days*

The Reeb® Finish Express Program

A pre-finished door takes the hard work off your plate, giving you a durable, low-maintenance door that's ready to enjoy. With the Reeb® Finish Express Program, the process gets even easier – delivering a beautifully pre-finished door unit to your home in just a matter of days.*

These Therma-Tru® Smooth-Star® fiberglass doors feature:

- A double bore with a 2-3/4" backset
- The same color on both sides
- EnLiten™ Flush-Glazed Glass for a seamless look
- A durable PrismaGuard® Finish
- A 10-year limited warranty for peace of mind**

Step 1: Choose your door layout and SDL pattern.
Step 2: Pick your color - Alaskan Storm (AS) or Total Eclipse (TE).
Step 3: Select your frame (see back page) and place your order with your dealer.

Reeb® Finish applies colors from its own and Therma-Tru's color palette. Despite dual names, colors are identical; all finished with the PrismaGuard® process. Due to the printing process, images shown are representative of the paint color and may vary from actual paint color.

Simulated Divided Lite Bars

The Simulated Divided Lite Bars are finished to match the door creating a cohesive look.

Frame Options

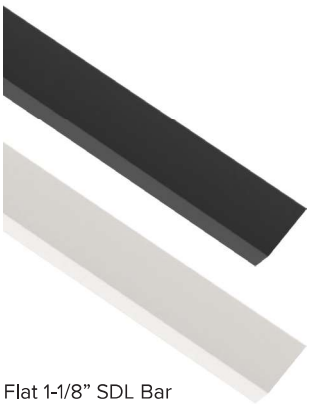
With the Reeb® Finish Express Program, you have the flexibility to choose between a pre-finished frame or an unfinished one. All door units in the program are inswing single doors.

Opting for a pre-finished frame means your door unit arrives ready to install, saving you time and effort. The On-Guard™ Composite Smooth Frame is available pre-finished in PrismaGuard® Total Eclipse or PrismaGuard® Alaskan Storm, with the option to add matching standard brickmould for a polished look.

If you prefer an unfinished jamb, you can select from two durable options: a smooth composite frame or the FrameSaver frame.

Hardware Options

For additional hardware options—including sill finishes, hinge colors, and locks—simply scan the QR code to explore your choices.



Flat 1-1/8" SDL Bar

Contour 1-1/8" SDL Bar
